Speed + Distance System

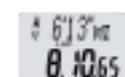

Utilizing renowned GPS technology, the Speed + Distance System utilizes a network of global positioning satellites to precisely track how far and how fast you are running, biking, rowing or skiing. Anytime. Anywhere in the world.

Exact speeds[†]
Measures your real-time speed, average speed and maximum speed.

Exact distances[†]
Tracks your workout distance. Also functions as a continuous odometer.

Exact pacing[†]
Calculates your pace, average pace and best pace.

Ironman® Triathlon® Speed + Distance System
