

# More Design Leadership and Innovation from TIMEX

Timex's introductions for the second half of 2003 reflect an unrelenting commitment to meeting the lifestyle needs of the widest possible audience. More than one-half of the styles in this catalog fall into the design-driven "fashion" category. New technology is represented by Expedition® combo

compass watches, which feature the traditional look of an analog watch with the convenience of a highly accurate digital compass. In all, there are over 60 new timepieces and just as many good reasons Timex® is the best-selling watch in North America.

**Bold Style Number = New Introduction**

● INDIGLO® ● Easy Set Alarm F - FASHION O - OUTDOOR S - SPORTS

\*BATTERY LIFE ESTIMATES ARE BASED ON CERTAIN ASSUMPTIONS REGARDING USAGE; BATTERY LIFE MAY VARY DEPENDING ON ACTUAL USAGE

TIMEX watches bearing the double wave symbol  on the band, face or case resist penetration by water while bathing, showering, car washing, fishing, sailing, snorkeling, poolside diving, surfing, windsurfing, body surfing, boarddiving and waterskiing.

**WATER RESISTANCE GUIDE**

Water Resistance Depth	p.s.i.a. Equivalent Immersion
30 m/98 ft	60 p.s.i.a.
50 m/164 ft	86 p.s.i.a.
100 m/328 ft	160 p.s.i.a.
200 m/656 ft	284 p.s.i.a.

Note: To maintain water resistance, do not press any buttons or pull out the crown under water unless your watch is indicated as 200 meter water resistant. The watch is water resistant only as long as crystal/lens, crown/push buttons and case remain intact. Even though the watch may be water resistant to a significant depth (100 or 200 meters), it is not a diver watch and should not be used for diving. Timex recommends rinsing your watch with fresh water after exposure to salt water.

watch features & functions >

1. Find the **style number** in the **product index** (page 14) and look up the module number.
2. Then locate the **module number\*** here in bold white type to find the features and functions of that watch.
